

Summer Internship Application Open for 2019

Application deadline: April 22, 2019

Selected participants will be notified in mid-May.

Internships are a forty-hour per week, paid positions and eligible to current high school juniors. The dates are scheduled from **June 20, 2019 through August 16, 2019**, with no sessions on July 4 and 5.

The selected participants will be offered one of the following opportunities (based on interest as expressed in their application):

- mentorship by scientists on potentially publishable research in chemical or material sciences
- learn a modern computer coding language, Python, with possible projects to include application software development, autonomous robotics, machine learning, microcontrollers and sensors, or quantum computing
- participate in a professional writing program, which includes science/technical, business, and creative writing in support of STEM subject matter
